

Quality, Safety, Health and Environmental (QSHE) Policy Statement

The board, management and staff of Associated Battery Manufacturers (ABM) EA Ltd, are committed to maintaining and enhancing the reputation of ABM as an industry leader in plastics, battery and associated components.

To achieve this, we shall ensure that we adhere to the following pillars;

Compliance, Protection and Sustainability

Ensure compliance to international standards in plastics and automotive sectors i.e., ISO 9001, ISO 14001, IATF 16949 as well as applicable statutory, regulatory and any other requirement that ABM subscribes to, relating to its Quality, Occupational Safety, Health and Environmental aspects and impacts.

Ensure environmental protection and sustainability through recycling of used lead acid battery components at ABM Athi River and related operational wastes at all ABM sites.

Minimizing and controlling waste by reduction of emissions, effluents, factory scrap and solid discharges.

Identify, assess and take actions to mitigate all Workplace Hazards and Occupational Safety & Health risks.

Customer and Interested Parties Satisfaction

Deliver added value to our clients and Interested Parties by identifying, monitoring and responding to their needs, expectations and levels of satisfaction;

Continually embrace the innovation, technological advancement and new ideas in product, environment and safety improvements.

Continual improvement

Set measurable objectives and seek to continually improve the Health and Safety, Product Quality, Environmental Protection, Delivery of Products and Services;

Engage all staff in continual improvement and recognize their contributions;

Continually review and improve the effectiveness of our Integrated Management System (IMS);

Periodically review and modify the QSHE policy to maintain its relevance to what ABM subscribes to.

Communication

Openly communicate and avail this QSHE policy to interested parties as appropriate.

Advise, educate and encourage all interested parties to adopt and promote Occupational Safety, Healthy and Environmentally sound practices.

GUY JACK

GROUP MANAGING DIRECTOR
